

**REMARKS**

This paper is filed in response to the Election Requirement dated November 14, 2007.

The examiner has identified two species, species I and species II, which correspond to figures 5 and 12, respectively. However, the examiner has not identified which claims correspond to each of these species. Applicant elects species II and has determined that claims 14-18 and 20-22 correspond to the elected species. Other claims are withdrawn from consideration pending determination of patentability of generic claims. Withdrawn claims 2 and 3 have been amended to fix a minor typographical error.

Respectfully submitted,

/Scott C. Krieger/
